INTRODUCTION

These books contain the rules, procedures and administrative procedures for the practice of archery in Canada as practiced by the Federation of Canadian Archers Inc., known as Archery Canada and its member Provincial Sport Organizations and their Registrants. It also contains most laws and bylaws governing archery in the member organizations of the World Archery Federation as they have an interest in Canadian archers.

Archers, clubs and other organizations are free to practice archery in the forms and by the rules as they wish. However, they are encouraged to practice archery by these rules in the interests of promoting consistency of understanding and practice by archers in Canada and by other sports organizations around the world.

This edition contains all current World Archery laws and bylaws and Archery Canada rules approved and in effect on the date shown below. There may be interpretations which may affect this edition. Please check the World Archery website (worldarchery.sport) and Archery Canada website (archerycanada.ca) for a listing of all interpretations which may be in force.

In the case of any question concerning a rule in this Rulebook arising from editing errors or from differences between the French and English language versions, reference will be made to the original form in which the Archery Canada Board of Directors approved the rule. Where any discrepancies occur between the World Archery rules in this book and the official World Archery Rule Book the official World Archery Rule Book will take precedence.

This version supersedes all previous versions.

ORGANIZATION:

The Archery Canada Rule Book has been divided into 6 Books.

Book 1 - Constitution and Procedures	(World Archery & Archery Canada)
Book 2 - Events	(World Archery & Archery Canada)
Book 3 - Target Archery	(World Archery & Archery Canada)
Book 4 - Field and 3D Archery Rules	(World Archery & Archery Canada)
Book 5 - Miscellaneous Archery Rounds and Ski-Archery	(World Archery)
Book 6 - Anti-Doping Rules	(World Archery)

FORMAT OF CONSTRUCTION:

The Articles (rules as passed by the World Archery Congress) are in **black type and Times New Roman font**. The Articles (bylaws as passed by the World Archery Board) are in *black type and Italic Times New Roman font*. Certain sections of the World Archery Constitution and Rules that are not normally of interest to Canadian archers are not included. In most cases, such exclusions are indicated in the text. The full and current text of the World Archery Constitution and Rules can be obtained on the website of World Archery at worldarchery.sport/rules, menu item Home-Rules.

The Article (rules) in blue type, Arial font, indicate the exceptions or additions to the rules of World Archery as they apply to archery in Canada recognized by Archery Canada.

Article numbers preceded by WA indicate World Archery rules. Those preceded by AC indicate Archery Canada rules. Article numbers in **black type** and preceded with no text are by default World Archery rules.

AC sections with the same numbers as the WA sections reference the WA sections and express the exceptions or additional information as the WA section.

The masculine or feminine gender used in relation to any physical person shall be understood as including the other gender unless there is a specific provision to the contrary or a logical separation (eg. the class "Women" only refers to female archers).

As used herein, the words "may not", "shall" and "will" are to be interpreted as a mandatory provision.

The masculine or feminine gender used in relation to any physical person shall be understood as including the other gender unless there is a specific provision to the contrary or a logical separation (eg. the class "Women" only refers to female archers). Note: Language related to gender and the use of pronouns, along with "Men" or "Women" throughout the Archery Canada rule book, is meant to identify and address specific competition categories as outlined by World Archery Rules. Archers in Canada, for National events, have the right to choose the category in which they most closely identify.

OTHER RECOGNIZED RULES

Archery Canada's rules of archery and most administrative requirements are based to a large extent on the rules of World Archery.

Archery Canada is the Canadian organization officially affiliated with the International Field Archery Association. IFAA rules can be found online at www.ifaa-archery.org.

Archery Canada rules for the sport of 3D archery are unique for Canada. However, they have a basis on the rules of 3D archery practiced by both World Archery and the International Bowhunters Organization (IBO).

This rulebook does not contain the rules of the International Field Archery Association (IFAA), the National Field Archery Association (NFAA – USA), the Archery Shooter's Association (ASA), or the International Bowhunting Organisation (IBO). Readers must refer to the rules published by those organizations for events sanctioned by them.

AC 4.5.7.0.2.1.

For ties regarding progress from the Qualifications round to the Finals round, there shall be shoot-offs to break the ties:

- A single arrow shoot-off for score;
- If the score is the same, the arrow closest to the centre shall resolve the tie, and if the distance is the same, successive single arrow shoot-offs until the tie is resolved;

- This shoot-off will take place in a central area after the qualification courses are complete.

AC 4.5.7.0.2.2

Individual Finals Round:

- For the individual finals round, scores will carry over from the Qualification round total of 60 targets;
- Finals will be five (5) targets at varying distances and sizes;
- The TD will choose the targets and distances that archers will shoot during finals.
- The Finals will be shot on a Finals field.
 - One arrow per target;
 - One (1) minute to shoot one arrow;
 - Archers will be assigned one of the five (5) targets to start;
 - Archers will shoot and score their first target;
 - Archers will then rotate to the next target to shoot and score;
 - This is repeated until all five (5) targets have been shot;
 - For the **Individual Finals Only**, an arrow shot inside the 11 scoring ring scores 14 points unless the arrow breaks the line of the 11 rings, in which case it will score 11 points.
- The highest three scores, Qualification plus Finals, after five targets, will be medalists;

AC 4.5.7.0.2.2.1

For ties for deciding the Medal placements in the Finals Round, there shall be shoot-offs to break the ties:

AC 4.5.7.0.2.3 3D Mixed Team Event (new for 2023)

AC4.5.7.0.5.1

Participating archers are grouped in categories according to the stake at which they shoot:

- Indoor 3D Nationals:
 - White Stake (Max 30):
 - ◆ U18 Traditional;
 - ◆ U21 Traditional;
 - ◆ 50+ Traditional;
 - ◆ Instinctive (WA Traditional);

 - ◆ U18 Unlimited;
 - ◆ U21 Unlimited;
 - ◆ Hunter;
 - ◆ 50+ Unlimited;
 - ◆ 60+ Unlimited;
 - ◆ Fixed Pins;
 - ◆ Unlimited.

Men and Women shoot in separate categories.

AC4.5.7.0.5.2

The elimination within each category proceeds:

The males and female categories shall be run concurrently to save time for each division.

Targets are arranged at varying distances throughout the range such that several targets may be designated and shot from each stake. Any target may be designated for shots by a group, but in no case will targets farther than the maximum distance from a stake be designated.

The archers in each category will be divided into two groups according to their ranking position. The archers ranked 1, 3, 6 and 8 initially shoot as one group and the archers ranked 2, 4, 5 and 7, shoot as another group. If there are four archers, they shoot as one group.

All the archers in each group shoot at the same designated target - not necessarily the same target or the same distance as used by the other group in the category. These targets must be different from the target/distance combinations previously shot by any of the archers in the category.

The shooting order in the groups shall be determined in the following manner:

- Two (2) groups of four (4) archers will be created for each shooting stake:
 - (1,3,6,8);
 - (2,4,5,7).
- The groups will be as follows for each shooting stake;
 1. (4 male) (4 male) (4 female) (4 female);
 2. (3 male) (3 male) (3 female) (3 female);
 3. (4 male) (4 female) ***Groups Combine***;
 4. (3 male) (3 female);
 5. (2 male) (2 female);
- The order of shooting for each target shall start with the lowest-ranked archer and proceed to the highest-ranked. The order will not rotate.

If someone from the top eight (8) does not intend to participate in the Grand Prix, the Host Committee shall move down the results list to the next eligible archer until eight (8) archers are found. If they are unable to find eight (8) archers to participate, the first group of three (3) shall be the group containing the number one ranked archer entering the Grand Prix.

Arrows are scored after all shooters in the group have shot their arrows.

The furthest arrow from the center of the 11 ring will be eliminated after each target and will be measured by the judges. Archers will not be allowed past the shooting line once the event starts and judges will pull all the arrows. Any archer missing the target is eliminated. If all archers miss a target a new target will be selected by the DoS and all the archers will re-shoot the target, who missed the previous target.

The last remaining archer is the Grand Prix Winner for that category.

In all disciplines, a round total record may be claimed in an age class for which the athlete would be eligible, regardless of which age class in which the athlete actually registered, provided that all distances are the same for each class.

Distance records in Outdoor Target rounds may be shot in any round of the same kind. For example, a U15 athlete shooting as a U18 could claim a U15, U18 and/or U21 1440 Round 30m record, provided it was shot in a 1440 Round, but he could not claim the U15 or U21 1440 Round total record because the distances differ.

[AC Note: *World Archery does not allow World Records for a round or for a distance unless the score is shot in a 1440 Round with all the same distances being shot as are shot by the age class the for which record is being claimed. For example, a U18 could NOT claim a 30m record if it was shot in a 1440 Round for U21s.*]

AC 5.3.3

In the event that Archery Canada changes rules governing divisions, classes or rounds (including scoring procedure or target size):

AC 5.3.3.1

Records may be carried forward to the new division, class or round provided the new rules do not make attaining a record score easier as determined by a majority vote of the AC Board of Directors;

AC 5.3.3.2

In the case that records are retired, they will be archived and displayed on the Archery Canada website separately from current records.

AC 5.3.4

60+ Canadian records are recorded only in the disciplines of Target Archery and Field Archery for athletes who are 60 or older on December 31 of the year in which a score is shot.

AC 5.3.4.1

In the disciplines of Target Archery and Field Archery, a 60+ athlete may claim an Open 60+ (Men or Women) record in a round eligible for Archery Canada records listed above.

AC 5.3.4.1.1

An athlete over 60 years of age must register for an Archery Canada target or field tournament in one of the competition classes - i.e. Senior or 50+.

AC 5.3.4.1.2

No Canadian Championship (CC) records are kept for this age class.

AC 5.3.4.2

In the disciplines of 3D Archery, 60+ is a competitive category. No records are kept in 3D Archery. Medals are awarded for the 60+ class only in the discipline of 3D Archery.

CHAPTER 7 - FIELD OF PLAY SETUP - TARGET ROUNDS

7.1. FIELD OF PLAY LAYOUT

7.1.1.

The field of play shall comply with the following provisions:

7.1.1.1.

The field of play shall be established with corners of 90 degree angles. Each distance shall be accurately measured from a point vertically beneath the gold of each target face to the shooting line.

The tolerance for distances is at 90/70/60m ± 30 cm; at 50/40/30m ± 15 cm; at 25/18m ± 10 cm.

AC7.1.1.1

The tolerance for distances is at 90/70/60/55m ± 30 cm; at 50/45/40/35/30m ± 15 cm, at 25/18m ± 10 cm.

7.1.1.2.

A waiting line shall be marked at least 5m behind the shooting line outdoors and at least 3m indoors. A media line shall be marked one meter in front of the waiting line.

7.1.1.3.

Each target butt outdoors shall be set up at an angle of between 10 and 15 degrees from vertical and between 0 and 10 degrees indoors, but a line of target butts shall be set up all at the same angle.

7.1.1.4.

The height of the centres of the target faces in a line of target butts should look straight at all times.

7.1.1.5.

All athletes in a category shall be assigned to one field of play.

7.1.1.6.

Whenever possible three athletes per target shall be assigned. If the field of play does not permit this, four athletes shall be the maximum number per target butt.

7.1.1.7.

There shall be a mark on the shooting line directly opposite each target butt. There shall also be a number corresponding to that target butt 4 metres in front of the shooting line. If two or more athletes are shooting at the same target butt at the same time, the shooting position or shooting space for each one of them shall be marked on the shooting line. A minimum space of 80cm per athlete for indoor rounds, and a minimum space of 90cm per athlete for outdoor rounds shall be guaranteed. ([Article 21.11.4.](#), [Book 3](#))

7.1.1.8.

The field of play shall be divided into shooting lanes containing one to four butts. These lanes shall be marked by lines extending at right angles from the shooting line to the target line.

7.1.1.9.

A line parallel to the shooting line shall be marked 3m in front of the shooting line.

7.1.1.10.

Suitable barriers for the public shall be erected to keep spectators safe. Consideration should be given to any distractions caused to the athletes by movement of people, etc. behind the butts.

Outdoors these barriers shall be at least 20m away from the sides of the first and last target set at 90m. This distance may be reduced in a straight line to a minimum of 10m away from the ends at the shooting line. This shall maintain a margin of approximately 13m from the target line when the target butts are moved to 30m. The barriers shall be at least 10m behind the waiting line. The barriers shall be set at least 50m beyond the 90m target line. This shall create a safety zone increasing to 110m when target butts have been moved forward to 30m. The safety distance of 50m may be reduced if an adequate backstop, e.g. efficient netting, a bank or similar device, is erected (not a hedge or penetrable fence). The backstop shall be high enough to stop arrows which have just missed the top of the butt at 90m.

Indoors where the size of the hall dictates, suitable barriers shall be erected around the range to keep spectators back. These barriers shall be at least 10m from the ends of the target line and shall be at a minimum of 5m behind the waiting

In the Elimination Rounds, target butts are to be arranged in closely set pairs.

7.1.1.12.

For the Olympic and Compound Match Rounds a practice field shall be made available alongside the competition field, where athletes still in the competition may practice during the Elimination and Finals Round.

7.1.1.13.

For the Team Rounds a clearly visible line shall be marked 1m behind the shooting line. This line shall be at least 3cm wide.

7.1.1.14.

For the Team Rounds there shall be an athletes' area marked behind the 1m line, giving reasonable space for three athletes and their equipment and a coach's area behind the athletes' area. If space allows, there shall also be a small area marked for the Judge between the two competing teams.

7.2. VENUE EQUIPMENT AND SCORING ZONES

7.2.1. Butts (buttresses)

The size of the front of the butt, whether round or square, shall be large enough to ensure that any arrow hitting the butt and just missing the outermost edge of the scoring zone remains in the butt. The arrows hitting shall remain embedded in the butt to allow proper scoring.

7.2.1.1.

Butts shall be firmly attached to supports, which shall be pegged securely in the ground to prevent them from being blown or pulled over. Any part of the butt or its support likely to damage an arrow shall be covered. Care is necessary, particularly when more than one target face is placed on the butt, that arrows passing through the butt are not damaged by the support. See Outdoor target butt set-up for outdoor and Indoor target butt set-up for indoor target butt drawing.

Image 2: Outdoor Target Butt Setup ([AC version of Image](#))

Image 3: Indoor Target Butt Setup ([AC version of Image](#))

7.2.1.2.

Each butt shall have a target number. These numbers shall be minimum 30cm tall (for Outdoor Rounds) and minimum 15cm (for Indoor Rounds). Target numbers shall be fixed above or below the centre of each target butt, so they are clear of the target face.

7.2.2. TARGET FACES

There are four outdoor target faces:

- The 122cm face, 122cm in diameter;
- The 80cm face, 80cm in diameter;
- The 80cm 6-ring face (for multiple set-ups with score zones 5-10);
- The Academic Round Hit/miss face.

There are 10 indoor target faces:

- The 60cm diameter face;
- The 60cm triangular triple face;
- The 60cm vertical triple face;
- The 40cm diameter face;
- The 40cm triangular triple face;
- The 40cm vertical triple face
- The 40cm-R triangular triple face;
- The 40cm-C triangular triple face;
- The 40cm-R vertical triple face;
- The 40cm-C vertical triple face.

Only target faces produced by a manufacturer licensed by World Archery shall be used at World Archery competitions.

7.2.2.1.

Description:

The 122cm, 80cm, 60cm and 40cm faces are divided into five concentric colour zones arranged from the centre outwards as follows: yellow (gold), red, light blue, black and white. Each colour is divided by a thin line into two zones of equal width thus making 10 scoring zones of equal width when measured from the centre of the gold:

- 6.1cm on the 122cm target face;
- 4cm on the 80cm target face;
- 3cm on the 60cm face;
- 2cm on the 40cm face.

The dividing lines shall be entirely within the higher scoring zone in each case. There are no dividing lines between light blue and black, nor between black and white. The line marking the outermost edge of the white shall be made entirely within the scoring zone. The width of the thin dividing line and the outermost line shall not exceed 2mm on the target faces. The centre of the target face shall be indicated by a small “+” (cross). The lines of the cross shall not exceed 1mm in width or 4mm in length. An inner 10 ring, (which is marked as an X on the score cards) of 6.1cm in diameter for the 122cm target face and 4cm in diameter for the 80cm target face, is required to help determine ties in ranking. For indoor compound events the 10 ring is 3cm on the 60cm face and 2cm in diameter for the 40cm face.

- *Outdoors the 80cm 6-ring face may be used at 50m, 40m and 30m. The rings have the same dimensions as the 80cm faces, but with the 4 to 1 scoring zones removed. The lowest scoring zone is the light blue 5.*
- *Indoors triple faces may be used as follows. (For the Indoor Match Round, the 40cm triple face shall be used. R- and C- vertical triple faces are mandatory for the World Archery Indoor Championships). They have the same dimensions as the World Archery 60cm and 40cm faces respectively, but with the 5 to 1 scoring zones removed. The lowest scoring zone is therefore light blue 6. Each set consists of three small faces on a white background arranged symmetrically in a triangular pattern with the centres respectively bottom left, at the top, and at the bottom right, or in a vertical row. The centres of the golds shall be approximately 32cm distant from each other on 60cm faces and 22cm distant from each other on 40cm faces. There is a distinction between regular triple faces and Recurve (R) and Compound (C) 40cm triple faces. The 40cm triple face (both triangular and vertical) will*

differ in the size of the 10 ring: the 40cm-R has a 40mm 10 ring, the 40cm-C has a 20mm 10 ring and the combined triple face has the two 10 rings.

8.1.1.3.

The course(s) shall not be positioned higher than 1800m above sea level and the maximum difference between the highest and the lowest point in a course shall not be more than 100m.

8.1.1.4.

The targets shall be laid out in such order as to allow maximum variety and best use of the terrain. In the Finals Round two butts shall be placed side by side at each target on which a 60cm or 80cm target face is placed.

8.1.1.5.

At all targets, one shooting peg for each distance shall be placed in such a way as to allow at least two athletes to shoot at the same time from either side of the shooting peg.

8.1.1.6.

All shooting pegs shall be marked with the distance when marked distances are to be shot. The shooting pegs shall have different colours, corresponding to each group of categories as follows:

However, the distances given in [Article 8.1.1.10](#). Unit for Marked Course may be adjusted by ± 2 m. The correct distance shall be marked on the shooting peg.

The distance should be measured in the air approximately 1.5-2m above the ground. All kinds of measuring equipment can be used as long as it satisfies the tolerances.

8.1.1.8.

With respect to target butts and target faces:

8.1.1.8.1.

The butts shall provide a margin to allow all scoring arrows to be in the butt.

8.1.1.8.2.

At no point may any target face be less than 15cm from the ground.

8.1.1.8.3.

In all instances, regardless of the terrain, the buttress should be placed perpendicular to the athlete's line of sight from the shooting peg in order to present the target face's full picture.

8.1.1.12. FINALS ROUNDS (AND TEAM QUARTER-FINALS)

The semi final and final consist of four marked targets in each match with marked distances. During the finals the targets can be placed at the organiser wishes taking into consideration the terrain, lay of the ground and venue. All target faces (20/40/60/80) must be used and there should be a mix of short, medium and long distances.

8.1.1.12.1.

In the Mixed Team when shooting at 20cm face, each team will shoot at a 2x2 set up, one arrow in each.

8.1.1.13.

All targets shall be numbered in succession from 1 to 24. The numbers shall be clearly visible to archers and clearly identify the target number. They shall be placed 5-10m before reaching the shooting pegs for that target.

8.1.1.14.

The target numbers shall also function as the waiting area for the groups waiting for their turn to shoot. The members of the group shooting that target can be forward of the number board to assist with shading and spotting as necessary. From the waiting area it should be possible to see if anybody is standing at the peg.

8.1.1.15.

Clearly visible direction signs indicating the route from target to target shall be placed at adequate intervals to ensure safe and easy movement along the course.

8.1.1.16.

Suitable barriers shall be placed around the course, wherever necessary, to keep spectators at a safe distance while still giving them the best possible view of the competition. Only those persons having the proper accreditation shall be allowed on the course inside of the barriers.

8.1.1.17.

The assembly area should contain:

- *A communication system allowing contact with the chairperson of the Tournament Judge Commission and the organisers;*
- *Adequate shelter for team officials;*
- *Separate shelter for the Jury of Appeal and the chairperson of the Judge Commission;*
- *Guarded shelter for the athletes' gear and spare equipment;*
- *Practice targets on the competition days near the assembly point(s) for the athletes;*
- *Refreshment facilities;*
- *Toilets.*

8.1.1.18.

The course(s) shall be completed and ready for inspection no later than 16 hours before the shooting starts. At World Championships they shall be ready along with details of any modifications to those courses for use as Elimination or Final Rounds, no later than the morning of two days before the shooting starts.
